About Us

We " Solitaire Packaging Private Limited (SPPL) is a manufacturer and supplier of various types of corrugated boxes, wooden boxes and other packaging materials. SPPL is started by the professionals who possess the working experience over 20 years in packaging industry and supplied wooden and other packaging materials to varied industries.

we are facilitated by a sound and advanced infrastructure to insure that our products are at par with the highest industry standards. We always give our best to maintain quality in our products to meet utmost satisfaction of our clients.

Our Products

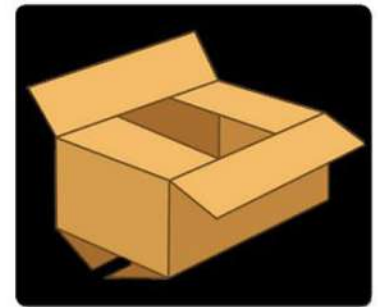

Heavy Duty Corrugated Box

Our dexterous professionals perfectly manufacture and design this Heavy Duty Corrugated Box with the use of optimum quality basic materials and sophisticated machines. Admired in cosmetic, giftware, electronic, and food processing industries, pharmaceutical, chemical, agricultural and various other fields owing to its excellent holding capacity.

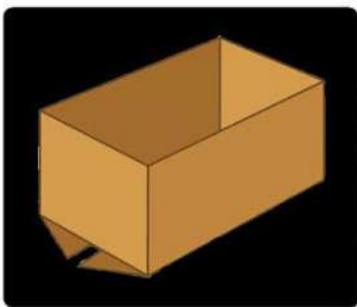

Printed Corrugated Box

we offer custom printed corrugated boxes to a wide variety of clients across a range of industry verticals. We perform custom printing on different types of boxes. Our custom printed corrugated boxes feature flexographic printing and we provide precise color matching services.

Regular Slotted Container(Rsc)

The most common box style. Highly efficient design for many applications. All flaps are the same length, and the two outer flaps (normally the lengthwise flaps) are one-half the container's width, so that they meet at the center of the box when closed.

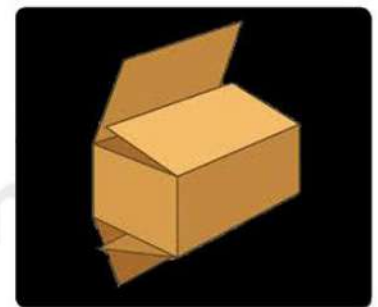

Half Slotted Container(HSC)

HSC is a one side of flaps only. This type of corrugated box is mainly used for batteries, washing machines, refrigerators etc. Half slotted container corrugated box is available in different custom sizes and designs

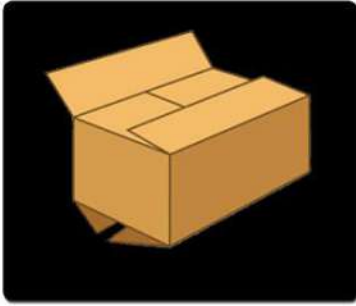

Overlap Slotted Container(OSC)

All flaps have the same length and the outer flaps overlap by one inch or more. The box is easily closed, either with adhesives or frequently with staples driven through the overlap area

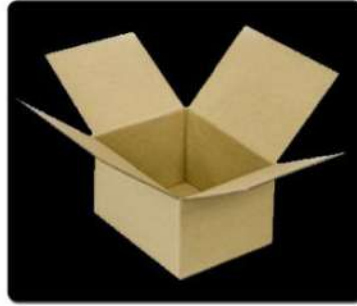

Full Overlap Slotted Container(FOL)

All flaps are the same length (approximately the width of the box). When closed, the outer flaps come within one inch of complete overlap. The style is especially resistant to rough handling. Stacked on its bottom panel, the overlapping flaps provide added cushioning and protection.

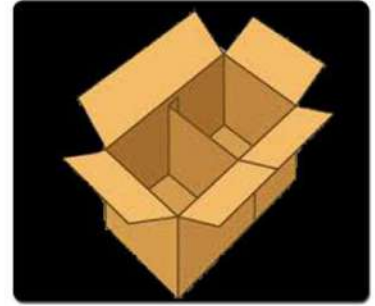

Center Special Slotted Container (CSSC)

A center special slotted box is similar to a regular slotted box, except that it is stronger at the top and bottom due to the double thickness of corrugated board in these areas. The inner flaps, meeting as they do,

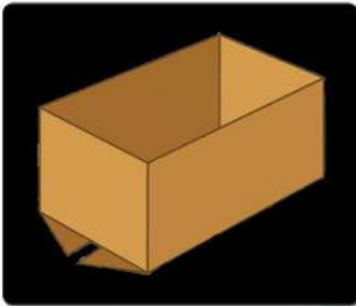

Center Special Full Overlap (SFF)

Inner and outer flaps are cut to different lengths. Both pairs of flaps meet at the center of the box. The style is especially strong because both the top and bottom have double the thickness of corrugated board. The inner flaps with no gap, provide a level base for the product.

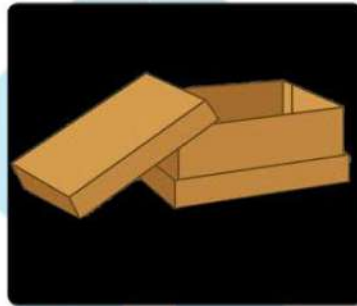

Intergal Divider Container RSC

This is a self-divided box. It is a regular slotted container but with a preglued internal divider.

Design Style Container With Cover (DSC)

We are manufacture of all type of design style container with cover.

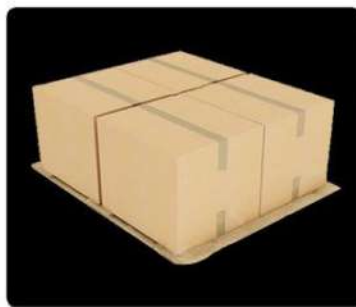

Double Cover Container (DC)

A square or rectangular tube forms the body. The top and bottom pieces are usually two interchangeable partially telescopic covers. The pieces are commonly shipped flat to the user, who opens the tube and sets up the covers. The style is frequently used for tall or heavy products that would be difficult to lower into a box.

Octagonal Double Cover Container (DC)

Octagon Cartons are large Bulk Bins that could be used for irregular shaped products such as watermelons. These bins consist of an outer and inner liner, along with an octagon shaped cap and cap liner.

Export Quality Box

We are leading manufacturer of Export Corrugated Boxes, those are known for their fine quality in the market.
